

Make the most of your client's Uninsured Loss Recovery

For any broker, the biggest headache for keeping existing clients and securing new ones is ensuring that they get the right protection whilst receiving the highest level of service, and all at a competitive price. But, more often than not it's the clients' bottom line that really dictates just recovering their losses in the shortest possible time.

At WNS Assistance, we believe that the true test of any uninsured loss recovery service is its ability to recover uninsured outlay on both non and partial fault claims quickly, with the maximum outlay being recovered with the minimum of fuss. Our unique IT Systems, together with disciplined processes mean we deliver excellent results. In 2006, for example, we recovered 70% of all monies on non-fault cases within 30 days of the accident. This enviable success rate, moreover, was achieved at a very competitive price.

As part of our commitment to supporting you and your clients, we employ qualified staff, trained to deliver a first-class service. Using quality management information and cost effective administration, WNS aim to be the industry leader through our innovative yet dependable ULR and accident management cover. As part of this we have a dedicated Broker Services Co-ordinator, Lucy Styles to handle all your ULR renewals and new business quotes.

What's the cost?

WNS Service	0 - 500 Fleet	500+ Fleet
ULR Service costs	£5 per vehicle per annum + IPT	Contact Lucy Styles on 0870 040 2949 for bespoke quotation.
